THERMAL BARRIERS

The use of thermal barriers in aluminum-framed windows and doors produces greater energy efficiency. Polyurethane is placed between the frame to create a thermal barrier and reduce the flow of heat.

OUR COMMITMENT TO YOU

We have a dedication to quality and build our windows and patio doors to last. With MILGARD you're covered for as long as you own and reside in your home with our Lifetime Limited Warranty.

See complete details at
[MILGARD.com/warranty](https://www.milgard.com/warranty)

OUR GOAL IS 100% TROUBLE-FREE

With a goal of 100% trouble-free, our teams work tirelessly to help ensure your project stays on track.

From regular inspections and quality audits throughout the manufacturing process, we strive to ensure that the final product you receive meets our high standards.

In addition, most MILGARD windows and patio doors carry the American Architectural Manufacturers Association (AAMA) Gold Label to show they have met their strict requirements, which are tested and certified by a third party. This rigorous testing includes water penetration, air leakage, structural integrity, and forced entry resistance.
